SUMMARY

Passionate data science student with a strong background in data analytics, statistical modeling, and machine learning. Skilled in Python, data visualization tools, and various data science libraries. Excellent problem-solving, research, and collaboration skills. Eager to gain insights and take on the challenge of driving decision-making through data-driven solutions.

TECHNICAL SKILLS

Programming Languages: Python, C, SQL

Libraries & Tools: NumPy, Pandas, Git

PROJECTS

Air Line Reservation System

Mern stack web development project

2023 – Present

Javascript, Css

- Users to find available flights based on criteria such as date, destination, and departure location.
- Provides users with the option to choose preferred seats during the booking process.

Event Management System

Enterprise Programming

2023 – 2024

Java, css

- Event Scheduling: Create, update, and manage event schedules with ease.
- Participant Management: Register participants, track attendance, and manage participant details

EXPERIENCE

Cloud Computing Intern

AICTE

2022 – 2023

INDIA

- Provided development teams with software architecture as a Cloud Intern
- Applied cloud and distributed systems expertise while collaborating with team members

Data Engineering Intern

AICTE

2023 – 2024

INDIA

- Developed and implemented processes and structures for data engineering tasks
- Designed, developed, tested, and deployed data pipelines and systems to support decision-making

EDUCATION

Koneru Lakshmaiah Education Foundation

Bachelor of Technology in Computer Science and Engineering CGPA: 9.2

Vijayawada, India

2022 – 2026

Sahasra Junior College Percentage: 68.1

Intermediate

Narayana Olympiad School SSC Percentage: 97

Kakinada, India

2020 - 2022

CERTIFICATIONS

- AWS Cloud Practitioner – Completed
